

## RI SIG Meeting minutes – February 24, 2023

Suggestions of future topics to cover:

- How to encourage researchers to move along the impact and engagement journey when very reluctant
- How best to record and track impact at the institute level. Particularly qualitative impact indicators.
- How to build impact markers/indicators into research for reporting purposes
- What systems are people using to track impact and how did they decide to use them?
- How to add impact into grant criteria (from a funder perspective)
- Best practice around training and educating staff in impact and engagement
- Capturing and reporting impact in the humanities
- Communicating research impact to different audiences. Including leveraging messages for strategic reasons
- Programme logic and activity plans
- Best practice in communication and engagement
- Impact in rural and indigenous communities
- Taking research into policy
- How to get impact stories out of researchers/identifying impactful research projects
- Private sector engagement with universities
- Developing ECRs to have impact
- Overview of the Research Impact Masterclass delivered by ARMS
